TutorLMS Integration

Integrations · https://fluentsupport.com/docs/tutorlms-integration/

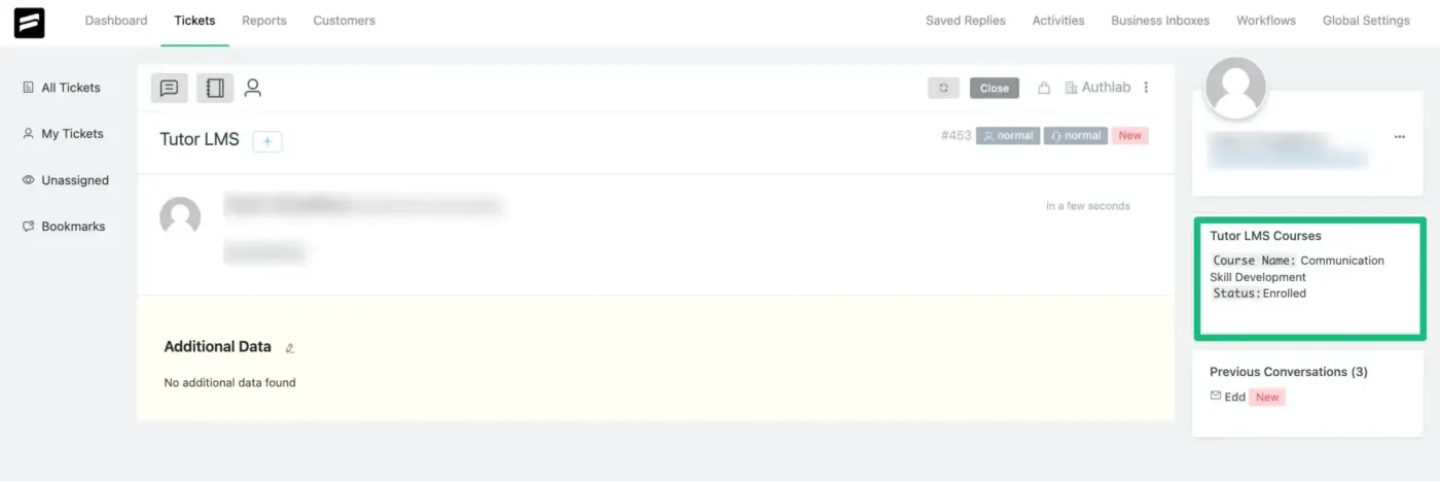
TutorLMS is a great **WordPress LMS** free plugin, with all the necessary features to create, manage, and sell e-learning courses. **Fluent Support** integrates with **Tutor LMS** to display an overview of the **Course Purchase History** of any user, including the **Course Name** and **Enrollment Status** on the **Ticket Entries** page after a user purchases.

This article will guide you through integrating **TutorLMS** with **Fluent Support**.

Tutor LMS Purchase Information In Your Ticket

You do not need to integrate the **TutorLMS** plugin manually with **Fluent Support**; it happens automatically if the TutorLMS plugin is already installed on your site.

For example, here you can see a user purchased a course from **TutorLMS** and the outline of course purchase history (Course Name and Enrollment Status) has automatically appeared on his ticket.



This is how the integration of **Tutor LMS** with **Fluent Support** works!

If you have any further questions, concerns, or suggestions, please do not hesitate to contact our **@support team**. Thank you.
