LearnPress Integration

Integrations · https://fluentsupport.com/docs/learnpress-integration/

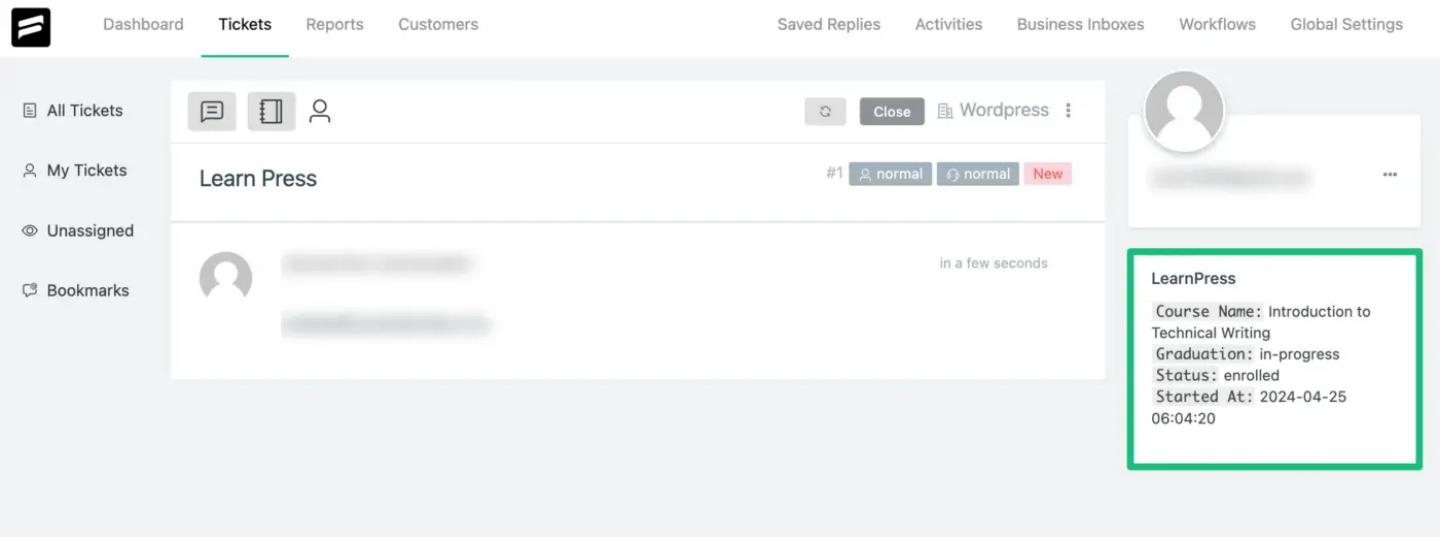

LearnPress is also **a WordPress LMS** plugin for e-learning courses; especially, ideal for beginners wanting to launch their first course. **Fluent Support** integrates with **LearnPress** to display an overview of the **Course Purchase History** of any user, including the **Course Nam**e, **Graduation Progress**, **Enrollment Status**, and **Starting Date** on the **Ticket Entries** page after a user purchases.

This article will guide you through integrating **LearnPress** with **Fluent Support**.

LearnPress Purchase Information In Your Ticket

You do not need to integrate the **LearnPress** plugin manually with **Fluent Support**; it happens automatically if the LearnDash plugin is already installed on your site.

For example, here you can see a user purchased one course from **LearnPress** and the outline of course purchase history (Course Name, Graduation Progress, Enrollment Status, and Starting Date) has automatically appeared on his ticket.

This is how the integration of **LearnPress** with **Fluent Support** works!

If you have any further questions, concerns, or suggestions, please do not hesitate to contact our **@support team**. Thank you.
